

# Residential Lead Paint Reduction Program

Unsure if you have lead based paint and possibly need assistance with the following:

✦ lead paint testing ✦ window replacement ✦ interior painting ✦ exterior painting

PathStone Corporation & Muncie Community Development are offering a 100% **FREE** lead based paint reduction service to a limited number of qualifying Muncie residents.

## *Lead paint is hazardous, is it in your home?*

The Environmental Protection Agency reports that lead is particularly dangerous to young children because, during development, their bodies not only absorb more lead than adults, but their brains and nervous systems are also more sensitive to the damaging effects of the lead.

United States Environmental Protection Agency. (2019). EPA. Retrieved from <https://www.epa.gov/lead/learn-about-lead>
